SUMMARY

Full Stack Web Developer with a background in Medicine and a lifelong passion for learning. Skilled in integrating creativity and problem-solving to craft user-friendly applications. Known among staff for a sharp wit and keen attention to both major and minor details, regardless of the project's complexity.

TECHNICAL SKILLS

Javascript,Html,Css,SQL,PostgreSQL,MongoDB,React,Express.js,Node.js,Restful APIS,PWA's,Object Oriented Programming,Render,Github,Github merging,netlify,Bootstrap,Jquery,JSON,Server-side and Client-side Models

PROJECTS

CMS-Tech-Blog|<https://github.com/scerda8/CMS-Tech-Blog.git>
|<https://cms-tech-blog.onrender.com>

This project involved developing a CMS-style blog site using Handlebars.js for templating, Sequelize for ORM, and express-session for authentication. Deployed on Render, the site allows users to publish articles, interact with contributors, login or sign up to comment and create posts, and even delete posts as needed.

PWA-Text-Editor|<https://github.com/scerda8/PWA-Text-Editor.git>
|<https://pwa-text-editor-gdwt.onrender.com>

This project involved creating a Progressive Web App (PWA) text editor with capabilities for offline and online functionality, allowing users to create and manage notes or code snippets directly within the editor. It was built using IndexedDB, JavaScript, service workers, manifest.json, and Webpack to ensure the app is installable and fully functional both online and offline.

My Blog|<https://github.com/scerda8/My-blogs.git> | <https://scerda8.github.io/My-blogs>

This project involved creating a blog into a two-pager website that allows the user to view and make blog posts. The user is also allowed to navigate the website by switching it from light to dark mode. This project will utilize JavaScript and CSS to change how the website will look and behave.

EXPERIENCE

Radiography Student
Sibley Memorial Hospital

March 2023- May 2023
Washington, D.C.

Worked with GE portable machines, enhancing my skills and expertise in diagnostic imaging. Gained hands-on experience in setting up and performing contrast studies such as barium

enema, upper gastrointestinal (UGI) series, and esophagram, as well as operating a DEXA machine and setting up cystograms.

Radiography Student
United Medical Center

October 2022- March 2023
Washington, D.C.

Operated GE portable machines and learned to tether them effectively for various applications. Gained experience working in different X-ray rooms and operated the C-arm independently. Acquired skills in taking diverse trauma views and positioning, as well as setting up barium enemas.

Radiography Student
Virginia Hospital Center

May 2022- July 2022
Arlington, VA

Operated various portable machines, including Samsung and GE equipment, while adhering to radiation safety protocols. Demonstrated proficiency in setting up exam rooms, taking patient histories, and performing exams independently. Worked with both digital and computed radiography systems, as well as Fluoroscopy machines such as Siemens. Utilized Epic for charging barium studies and learned how to set up arthrogram studies.

Pharmacy Tech
Walgreens

April 2021- June 2022
Annandale, VA

Worked closely with pharmacists to ensure patient health and safety by accurately counting and filling prescriptions. Managed cash transactions and registered all sales on the assigned cash register, handled cash, and prepared both new and refill prescriptions. Tracked inventory, packed and labeled orders, and ensured precise preparation and delivery of medications.

Sales Representative
MarketSource

August 2019- February 2020
Alpharetta, GA

Troubleshooting phones and using expertise to enhance customer relationships, leading to increased sales. Advised customers on selecting the best phone plans, including those involving third parties, and provided personalized recommendations. Managed inventory by checking and stocking products to ensure availability.

- I helped boost sales and accessories in the stores I went to, for target stores located in Fairfax, VA and Alexandria, VA
- Worked with phone companies such as Verizon, AT&T, Samsung, Google, Consumer Cellular, Tracfone, Cricket, and Metro by T-Mobile

Guest Services Advocate and Cashier
Target

September 2018- June 2019
Fairfax, VA

Demonstrated strong product knowledge and a deep understanding of target customers. Managed customer interactions including greetings, payments, returns, and refunds. Handled cash transactions with accuracy, multi-tasked efficiently, and provided courteous assistance to customers both in person and over the phone with their orders and inquiries.

- Trained five newly hired cashiers

- Provided instruction on register operations, customer service, and store procedures
- Assisted at guest services to expedite checkout and reduce wait times
- Recognized for quick and efficient handling of pickup orders and customer inquiries
- Frequently called upon to manage lines and improve overall service speed

Starbucks Barista

September 2018- June 2019

Target

Fairfax, VA

I was responsible for preparing the store for opening and closing it at the end of the day. My duties included taking orders, processing payments, and grinding coffee beans, ensuring fresh coffee was available every 15 minutes. I cleaned work areas, disinfected coffee machines and equipment, and monitored store conditions by recording refrigerator temperatures. Additionally, I managed inventory, placed new orders, and expertly added foam and texture to milk while efficiently multi-tasking with order processing and customer service.

- Assisted in training three new Starbucks baristas
- Guided them through store operations and beverage preparation techniques

EDUCATION

Full Stack Web Development Boot Camp Certificate: The George Washington University, Washington, D.C.

Completed a 24-week boot camp in Full Stack Web Development, acquiring hands-on skills in front-end and back-end technologies such as HTML5, CSS3, JavaScript, Node.js, MERN, Bootstrap, MySQL, PostgreSQL, JQuery, Express.js, PWA's, Server-side and Client-side Models and React.js. Developed practical experience through real-world projects, equipping for roles in dynamic web application development.

Associate Degree in Radiography

Northern Virginia Community College– Springfield, VA

August 2021 – May 2023

Completed an Associate Degree in Radiography, including comprehensive training in radiographic techniques, patient care, and radiation safety. Gained practical experience through clinical rotations, preparing for certification and a professional career in medical imaging.

Associate Degree in General Studies, Specialization in Health Science

Northern Virginia Community College, Medical Education Campus – Annandale, VA

August 2020 – August 2021

Completed an Associate Degree with a major in General Studies and a specialization in Health Science. The curriculum included key coursework in biology, healthcare principles, and medical terminology, providing a solid foundation in general education with focused expertise in health science.
